PROFESSIONAL SUMMARY

Frontend developer and MCA graduate (CGPA 8.87/10) with professional experience building responsive Vue.js interfaces, integrating REST APIs and supporting enterprise web applications. Works across JavaScript, HTML5, CSS3 and Bootstrap, with recent React/TypeScript projects. Brings practical SQL, ERPNext/Frappe and technical SEO experience, backed by published IEEE research. Seeking frontend developer and software developer roles across Saudi Arabia.

TECHNICAL SKILLS

Frontend: Vue.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, responsive web design, reusable components, routing, form validation; React & TypeScript (project experience).

Web & data: REST API integration, PHP, Flask, SQL, MySQL, ERPNext/Frappe, Metabase.

Tools & quality: Git, GitHub, Vite, Vercel, debugging, cross-browser compatibility, technical SEO, metadata, Core Web Vitals.

Applied AI: Python, PyTorch, DCGAN, BigGAN, CNN, MobileNetV2, Gradio.

PROFESSIONAL EXPERIENCE

Web Specialist - Frontend Development

Jul 2025 - Present

Zawia KSA | Riyadh, Saudi Arabia

- Develop responsive Vue.js interfaces using JavaScript, HTML5 and CSS3, with reusable component patterns.
- Integrate REST APIs and collaborate with backend teams on reliable application data flows.
- Debug UI issues and improve responsiveness, page-load behaviour and cross-browser compatibility.
- Customise ERPNext/Frappe workflows, fields and DocTypes; connect SQL/MySQL data to Metabase KPI dashboards.
- Support technical SEO through metadata, site structure, indexation and Core Web Vitals.

Frontend Developer Intern

Jan 2025 - Jun 2025

Design Webtech | Bengaluru, India

- Developed responsive, component-based interfaces using Vue.js, JavaScript, HTML, CSS and Bootstrap.
- Implemented routing, authentication flows and client-side validation; translated functional requirements into user-facing features.
- Contributed to debugging, testing, code reviews and agile delivery of client applications.

MOHAMMAD REHAN

Recent projects, education & research

SELECTED RECENT GITHUB PROJECTS

Alif Galleria | Product & Business Website

Sep - Oct 2026

JavaScript ES modules, HTML5, CSS3, Bootstrap

- Built a componentized product website with category filters, a media gallery/lightbox, responsive navigation and product-specific WhatsApp enquiries.
- Generated crawlable HTML and added metadata, business structured data, robots.txt and sitemap.xml.

GitHub: [rehan474/alif-galleria](#) | [Live website](#)

Mad Labs | Creative Services Website

Oct 2026

JavaScript, HTML5, CSS3, GSAP, ScrollTrigger

- Adapted a supplied design template into modular service and pricing sections, with category switching, FAQ accordions and WhatsApp enquiry links.
- Implemented animated reveals, responsive navigation and reduced-motion support.

GitHub: [rehan474/mad-labs](#) | [Live website](#)

Migrato Global | Bilingual Services Website

Aug 2026

React, TypeScript, TanStack Start, Tailwind CSS

- Created a Lovable-assisted React/TypeScript website with reusable service, destination and job-listing components and English/Arabic RTL support.
- Implemented an enquiry form with loading, success and error states, plus routed pages and structured metadata.

GitHub: [rehan474/migratoglobal](#) | [Live website](#)

Developer Portfolio | Project & Research Showcase

Jul - Oct 2026

React, JavaScript, CSS3, Vite, Vercel

- Built a component-based portfolio with project case-study modals, experience sections and an interactive hero.
- Configured canonical/social metadata and Git-connected Vercel deployments.

EDUCATION

Master of Computer Applications | NMAM Institute of Technology, Nitte

2023 - 2025 | CGPA: 8.87/10

Bachelor of Computer Applications | Alva's College, Moodbidri

2019 - 2022 | CGPA: 7.15/10

RESEARCH & INTELLECTUAL PROPERTY

Published: Text-to-Image GAN for Realistic Flower Image Synthesis Using Textual Input - IEEE Xplore, IDCIoT 2025. [Publication](#)

Accepted: Gradio-Enabled Dual-Model Waste Classifier - ICISML 2026.

Under review: Text-Guided Floral Image Synthesis Using BigGAN - IEEE.

Published Indian patent applications: 202541004974 A, 202541070082 A and 202541133604 A.

CERTIFICATIONS & LANGUAGES

OCI 2025 Certified AI Foundations Associate - Oracle, Oct 2025

AWS Solutions Architecture Job Simulation - Forage, Jul 2025

Additional: Microsoft Copilot for Productivity; Cybersecurity for Everyone.

Languages: English (professional), Hindi & Urdu (native), Arabic (basic).
